Minneapolis-St. Paul Office Market Trends

Market Observations

- Minneapolis benefits from the stability and vitality of a strong headquarters economy, home to 14 firms on the Fortune 500 list, the most per capita in the U.S. for a major metropolitan area. In addition, there are more than 320 Fortune 1000 companies with a local presence.
- Minneapolis-St. Paul is a global leader in biotechnology and biomedical research,
 with deep roots in agriculture, food exports and water technology, and has one of the
 highest concentrations of banks and financial talent of any major metropolitan area.
- The region has a historically low unemployment rate, currently 60 basis points lower than the national rate. The unemployment rate is 3.2% as of August 2023, compared with a low of 2.0% in April 2022 and 11.7% in May 2020.
- Minneapolis's 12-month job growth as of August was strong, with 35,400 jobs added.
- Office-using employment sectors have not returned to pre-pandemic levels.
 Information and financial activities saw year-over-year declines of 2.3% each, and professional and business services declined by 1.2%.
- The region added 35,400 nonfarm jobs since August of 2022, and total employment is 22,400 jobs above February of 2020.
- Leisure and hospitality employment continues to surge, recording an 8.1% increase in jobs, driven by consumer spending preferences shifting to experiences from retail goods.

Major Transactions

- Best Buy has made 600,000 SF of space available for lease within its expansive 1.5-million-SF corporate campus in Richfield. The complex has a 215,000-SF communal amenity area that includes numerous dining and coffee options.
- While the investment sale market remains slow, Spear Street Capital bought the 2022-built RBC Gateway tower from developer United Properties for \$225 million. The sale marks 2023's largest to date and included 525,000 SF of office space, a ground floor lobby and an underground parking facility with 296 stalls.
- HealthPartners chose not to renew its lease at the Great Northern Building in the St.
 Paul Central Business District, where it occupied 100,000 SF of space. Previously, approximately 500 employees were based at this location.
- The 58-story Capella Tower, the second-tallest building in Minnesota after the IDS Tower, is for sale. The property, owned by Shorenstein Partners, is in the Minneapolis CBD and totals over 1.4 million SF.
- SICK, a German sensor manufacturer, finalized the acquisition of land in Bloomington, close to the Mall of America. They will commence construction on a 144,000-SF office building in 2024, close to an existing production and logistics facility the company operates.
- UnitedHealth Group has opted not to renew its lease at its 345,000-SF headquarters building in Minnetonka. The company's C-suite executives are among the employees relocating from Minnetonka to the Optum campus in Eden Prairie during the first half of 2024.
- The Lumber Exchange, located in the Minneapolis CBD, has been acquired by the lender. The property, totaling 229,211 SF and constructed in 1885, was previously owned by R2 Companies and York Capital Management. There was a \$20.1-million loan associated with the property, which was due to mature on June 1st.

Market Observations

Leasing Market Fundamentals

- Quarterly net absorption was negative 967,041 SF, contributing to a year-to-date negative total of over 1.5 million SF. Much of this negative absorption was concentrated in the Southwest, due to Best Buy's listing of 600,000 SF at its corporate campus.
- This is the highest level of negative absorption recorded since the onset of the pandemic and compares to the third quarter of 2021, when there was 944,169 SF of negative absorption. Since 2020, positive absorption only occurred in the first guarter of 2022 when RBC Gateway was completed.
- As the office market grapples with significant changes in space utilization, the Minneapolis market also has the highest reduction of office-dependent employment. Information, financial activities and professional and business services were industries that had a decline in employment levels on an annual basis as of August.
- The vacancy rate including sublease space has risen to 21.5%, from 20.3% in the second quarter of 2023. The highest vacancy rate is 25.1% in the Minneapolis CBD, in contrast to suburban submarkets, where overall vacancy rate is notably lower at 18.9%.
- Rental rates again declined slightly by 1.4%, a continuation of the 1.4% decrease that occurred in the second quarter of 2023, which marked the first decline in asking rents since the onset of the pandemic. It's important to note that guoted rental rates remain elevated, while concessions are substantial and increasing, particularly in the Minneapolis CBD.
- The region's economy has historically benefited from a significant concentration of corporate headquarters, including both public and private companies. Since the onset of the pandemic and widespread adoption of hybrid work, this concentration has driven a significant decrease in office demand. Companies such as Best Buy, UnitedHealth Group, Target, BlueCross BlueShield of Minnesota, Thomson Reuters and Prime Therapeutics have either reduced or are planning to reduce office occupancy.

Outlook

- In a positive sign for future office space utilization, businesses continue to mandate or strongly encourage their employees to return to the office. In September, Xcel Energy declared a mandate for its employees to be in the office for a minimum of three days a week, including the 2,000 employees that work at the company's office in the Minneapolis CBD. Also of note are national tech firms, such as Apple, Google, Meta and Zoom, actively encouraging their employees to return to in-person work.
- There continues to be a steady influx of new sublease availabilities, but activity among these spaces, including larger spaces over 20,000 SF, is increasing. Forward Edge/Lockheed subleased 68,308 SF in the Northeast submarket, and NetSPI subleased 60,000 SF in the North Loop of the Minneapolis CBD.
- Our estimates indicate companies that have renewed or signed leases since the onset of the pandemic are, on average, reducing occupancy levels by around 20% as they embrace hybrid work strategies. Among office space users, a significant portion haven't yet gone through the process of reevaluating their space requirements, which is typically triggered by events like lease expirations or early termination options. Because of this, we anticipate a sustained decrease in overall demand for office space over the next few years as companies reevaluate their needs. This trend should stabilize by 2026.
- US Bank has several leases expiring in the next year, including 444,000 SF at US Bancorp Center in the Minneapolis CBD, 340,000 SF at Meridian Crossings in Richfield and 118,000 SF at U.S. Bank Center in the St. Paul CBD. The company also occupies over 250,000 SF at Excelsior Crossings in Hopkins. US Bank has asked its hybrid workforce to return to the office three days a week. Should the bank opt not to renew one or more of these leases as part of a workforce consolidation strategy, it could result in a substantial negative absorption.
- The pace of sales is expected to continue to be slow in upcoming quarters due to elevated interest rates and uncertain market fundamentals. In particular, lenders are displaying caution when it comes to providing loans for properties in Downtown areas.

Economy

Minneapolis-St. Paul's Total Employment Continues to Increase

The region added 35,400 jobs since August of 2022; the unemployment rate remains lower than the national rate, at 3.2%. Total nonfarm employment is 22,400 jobs above February of 2020.

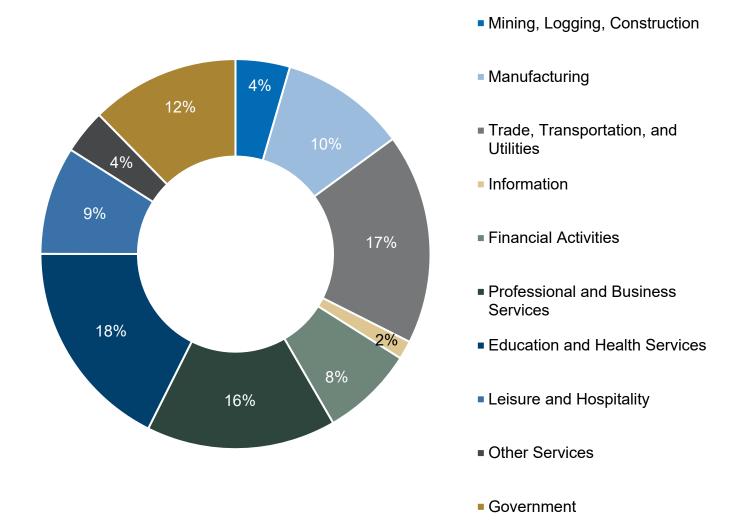

Source: U.S. Bureau of Labor Statistics, Minneapolis-St. Paul

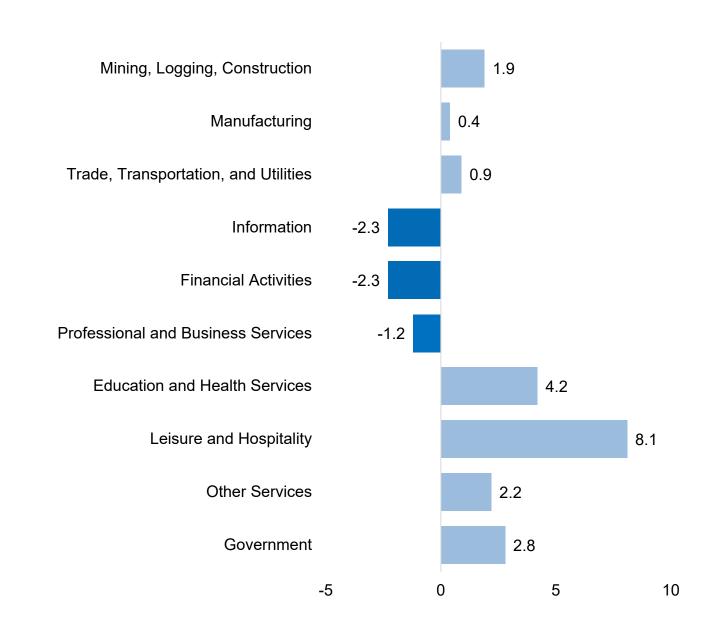

Office-Using Employment Lags While Leisure and Hospitality Sector Grows

Employment in the leisure and hospitality sector continues to thrive, driven by a shift in consumer spending preferences from goods to experiences. Information, financial activities and professional and business services are the only sectors that have seen a decline in jobs.

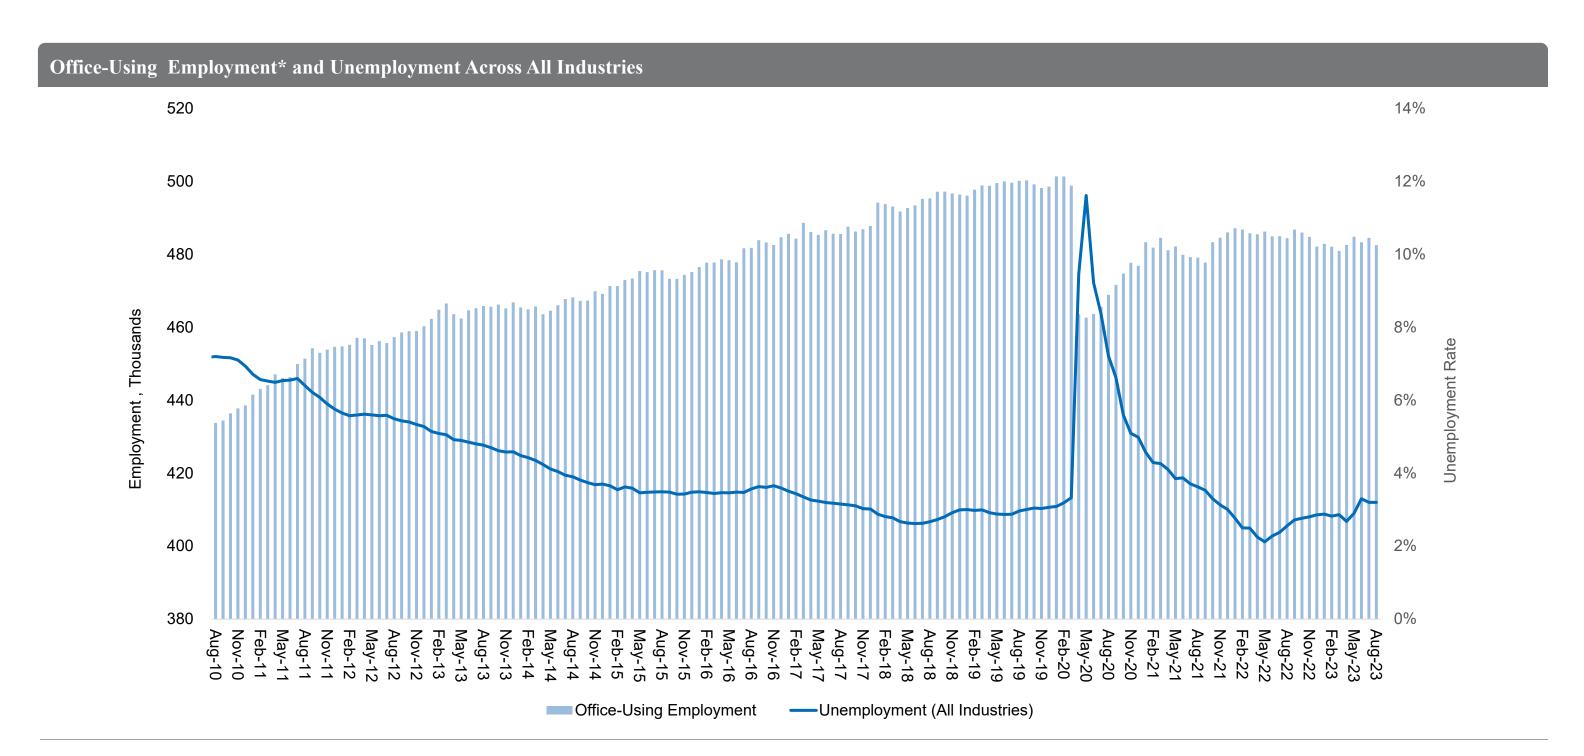

Employment Growth by Industry, 12-Month % Change, August, 2023

Minneapolis-St. Paul Office-Using Employment Struggles to Reach Pre-Pandemic Levels

The employment sectors that utilize office spaces, including professional and business services, information and financial services, are all experiencing ongoing declines.

Source: U.S. Bureau of Labor Statistics, Minneapolis-St. Paul

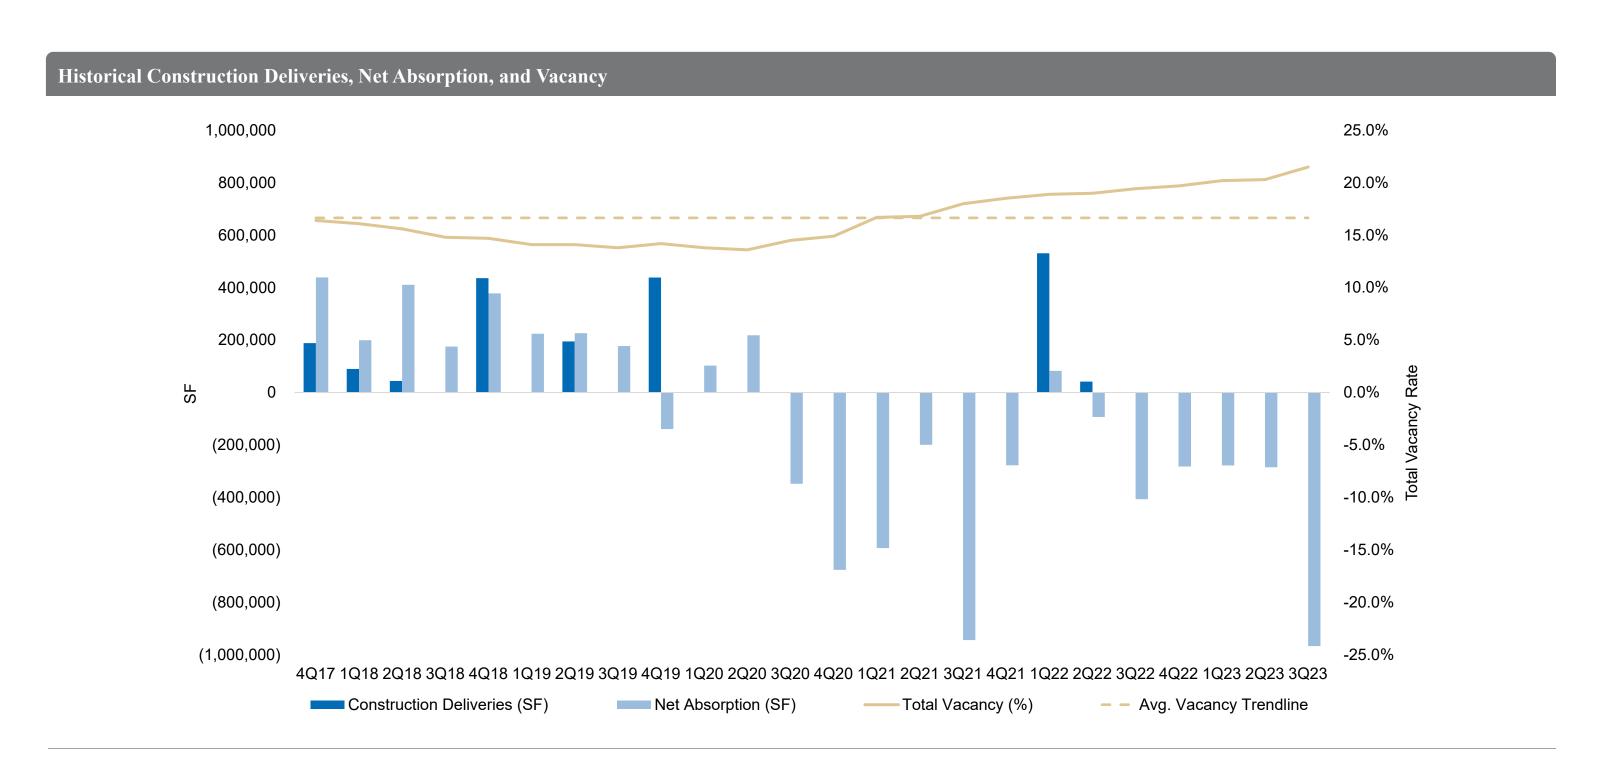

^{*}Office-using employment includes employment in the following industry sectors: Professional & Business Services, Financial Activities and Information.

Leasing Market Fundamentals

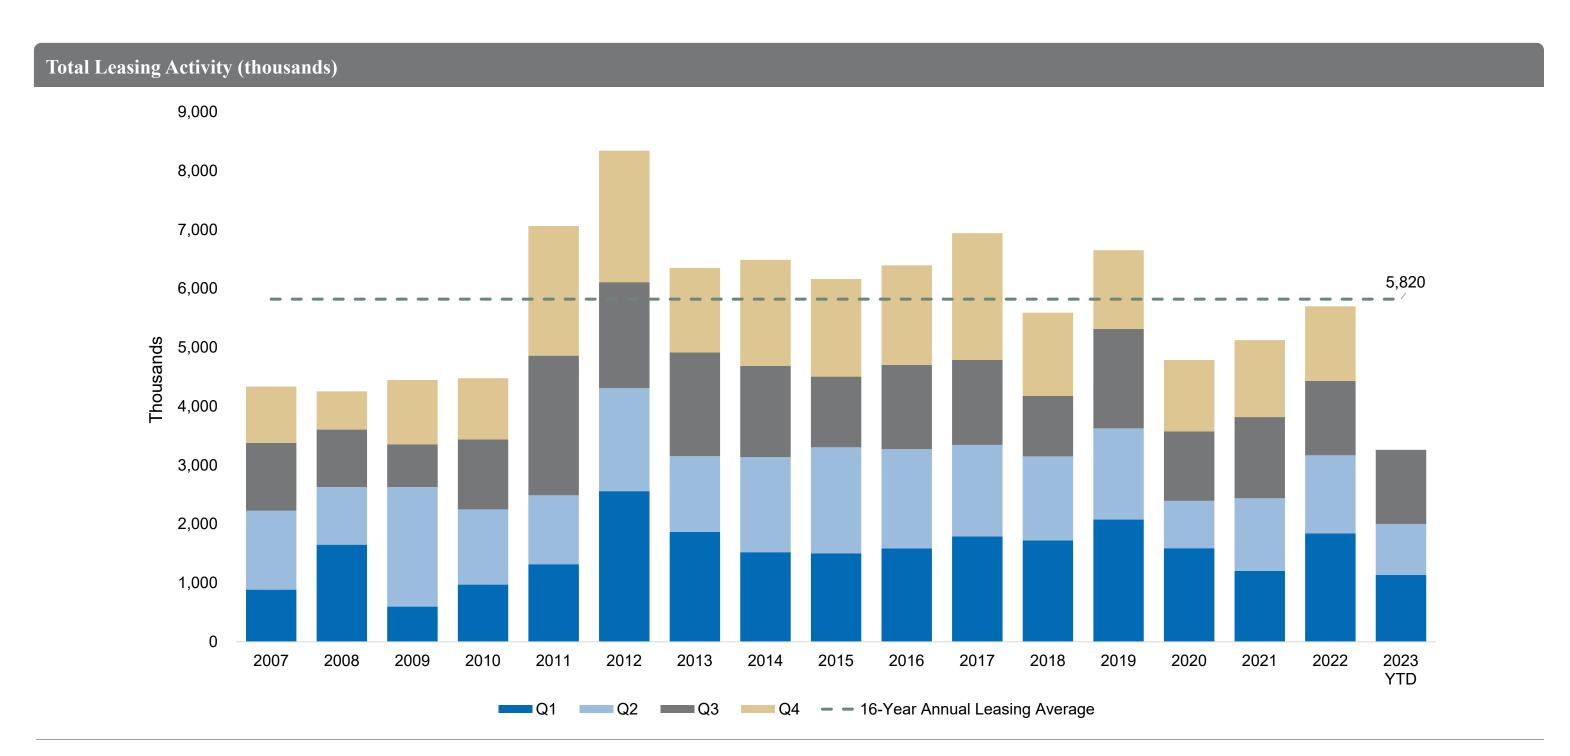

Negative Absorption at Post-Pandemic High

Best Buy's offering of 600,000 SF for lease at its corporate headquarters pushes negative absorption to the highest since the start of pandemic.

Leasing Activity Occurring but Most Companies Reducing Occupied Space

Activity is occurring as companies make longer-term decisions by either committing to new office spaces or renewing for longer terms. Most are reducing the amount of space they occupy.

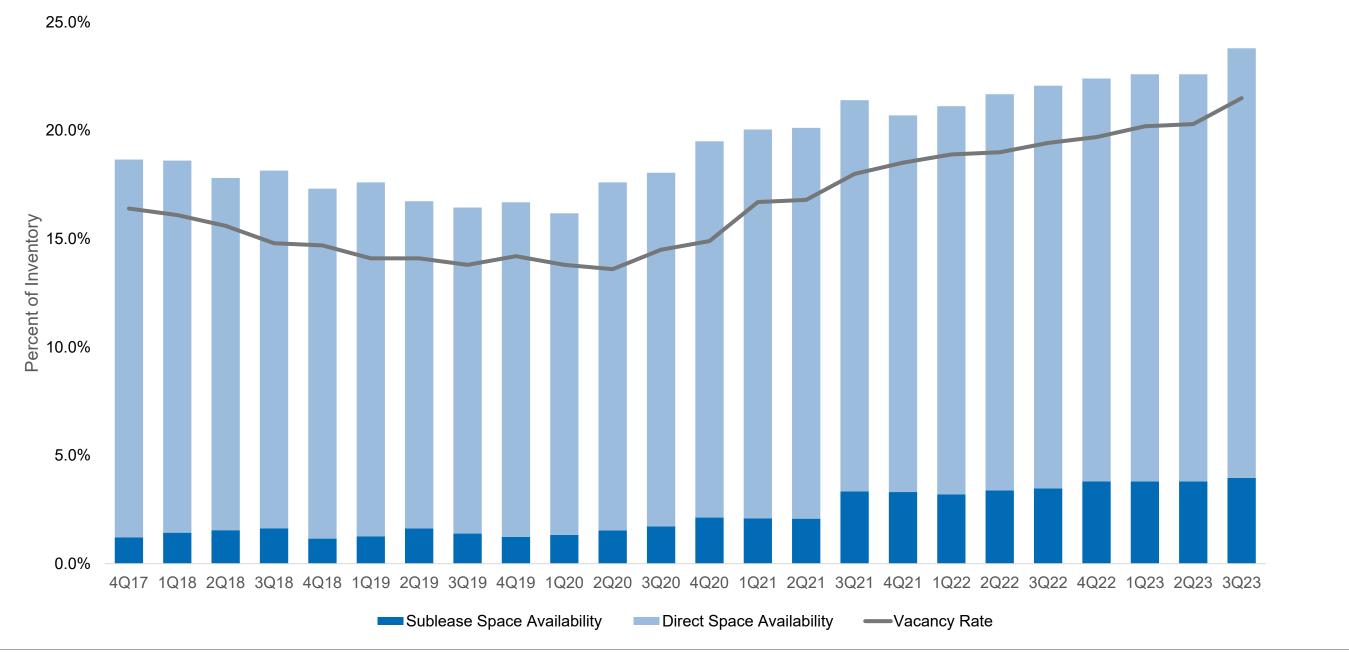

Source: Newmark Research, CoStar

Sublease Space Availability Continues to Increase

Led by corporate consolidations and a downsizing trend, the presence of sublease space remains a significant contributing factor in the vacancy rate.

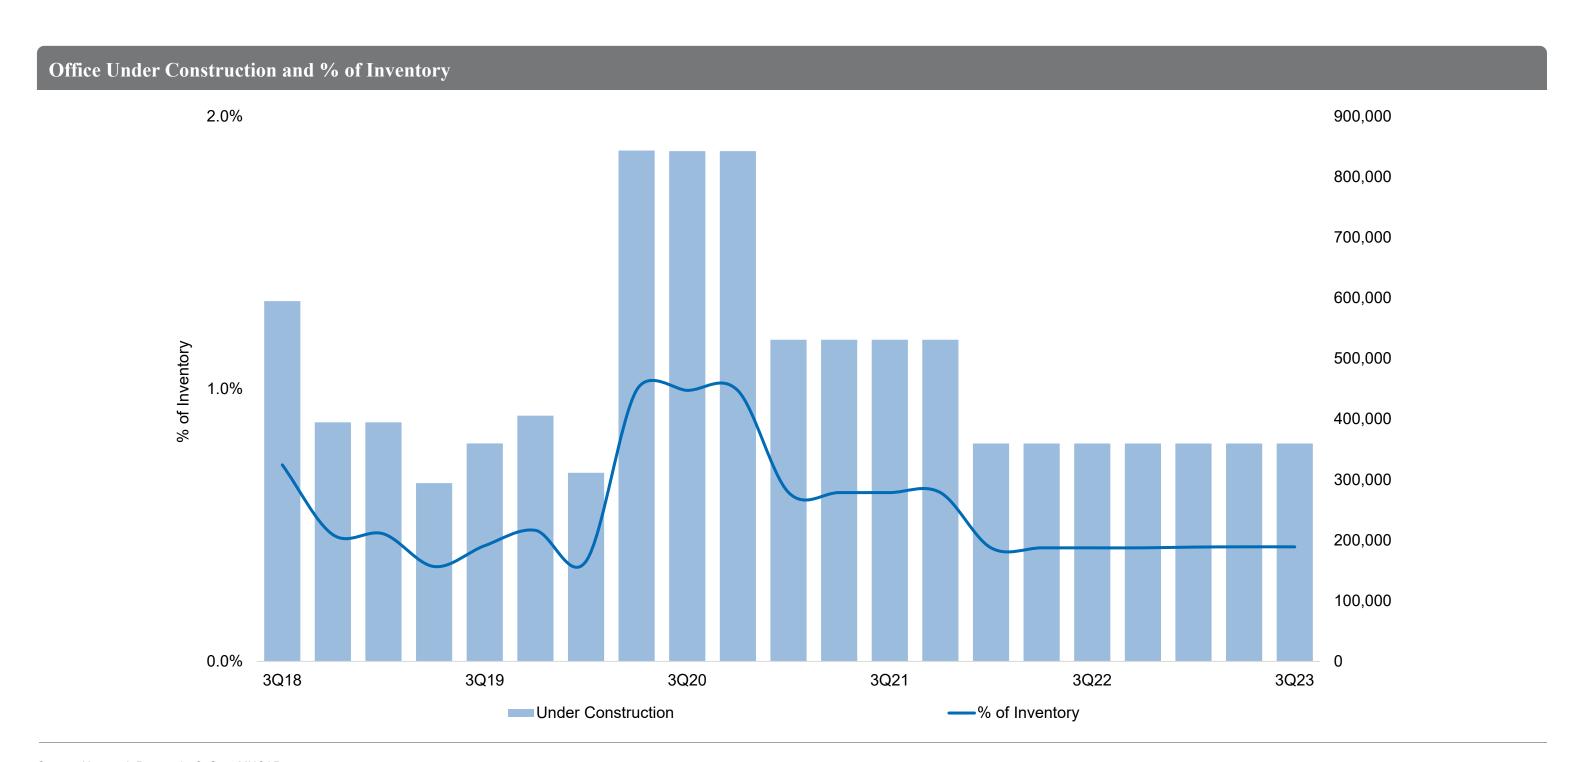

Source: Newmark Research, MNCAR

Drop in Office Demand Limits New Construction

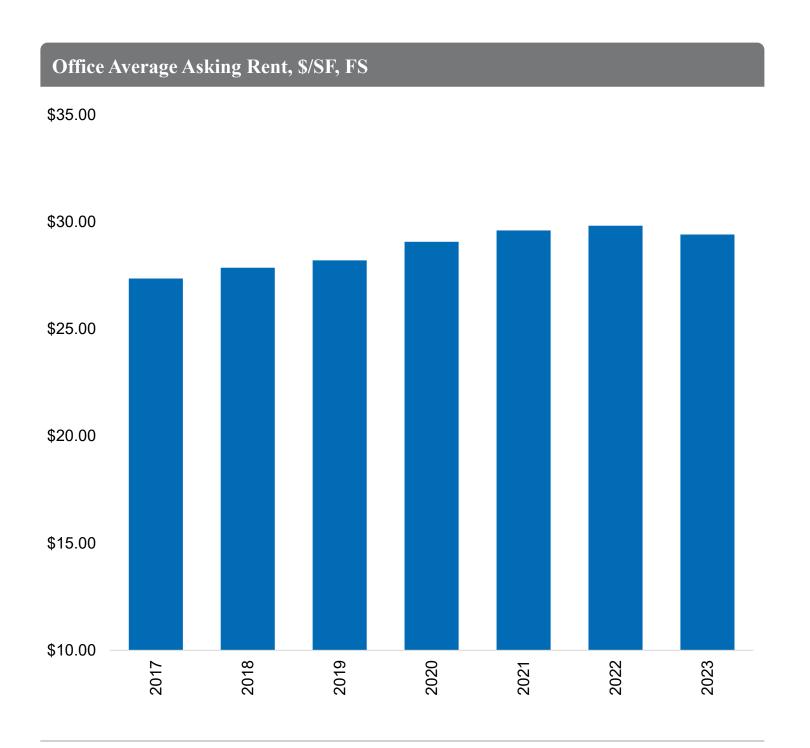

Given the ongoing decrease in demand for office space, future construction is not expected to exacerbate vacancy rates.

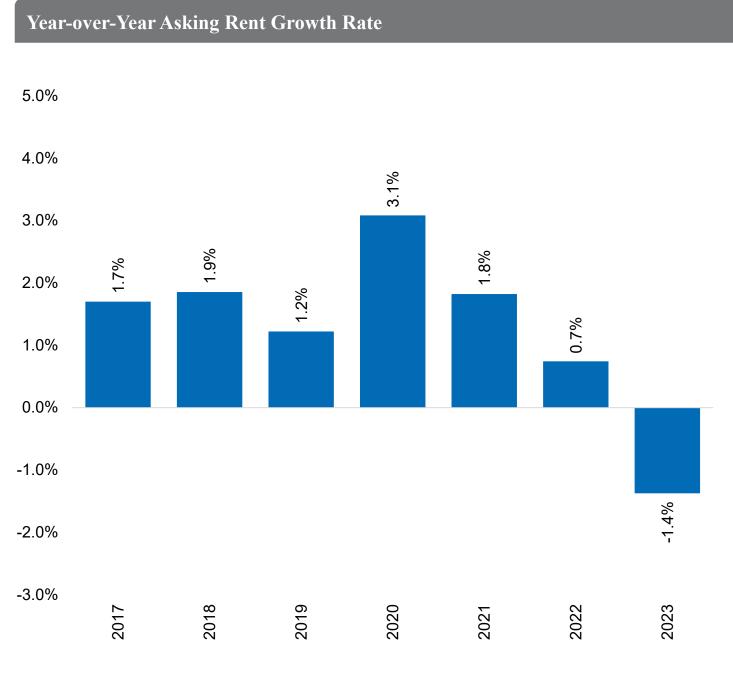

Source: Newmark Research, CoStar, MNCAR

Quoted Rates Decrease by 1.4%

Although there has been a slight decrease in quoted rent, rates remain historically high. Effective rates, which take into account concession packages, are considerably lower, reflecting the real cost of leasing office space.

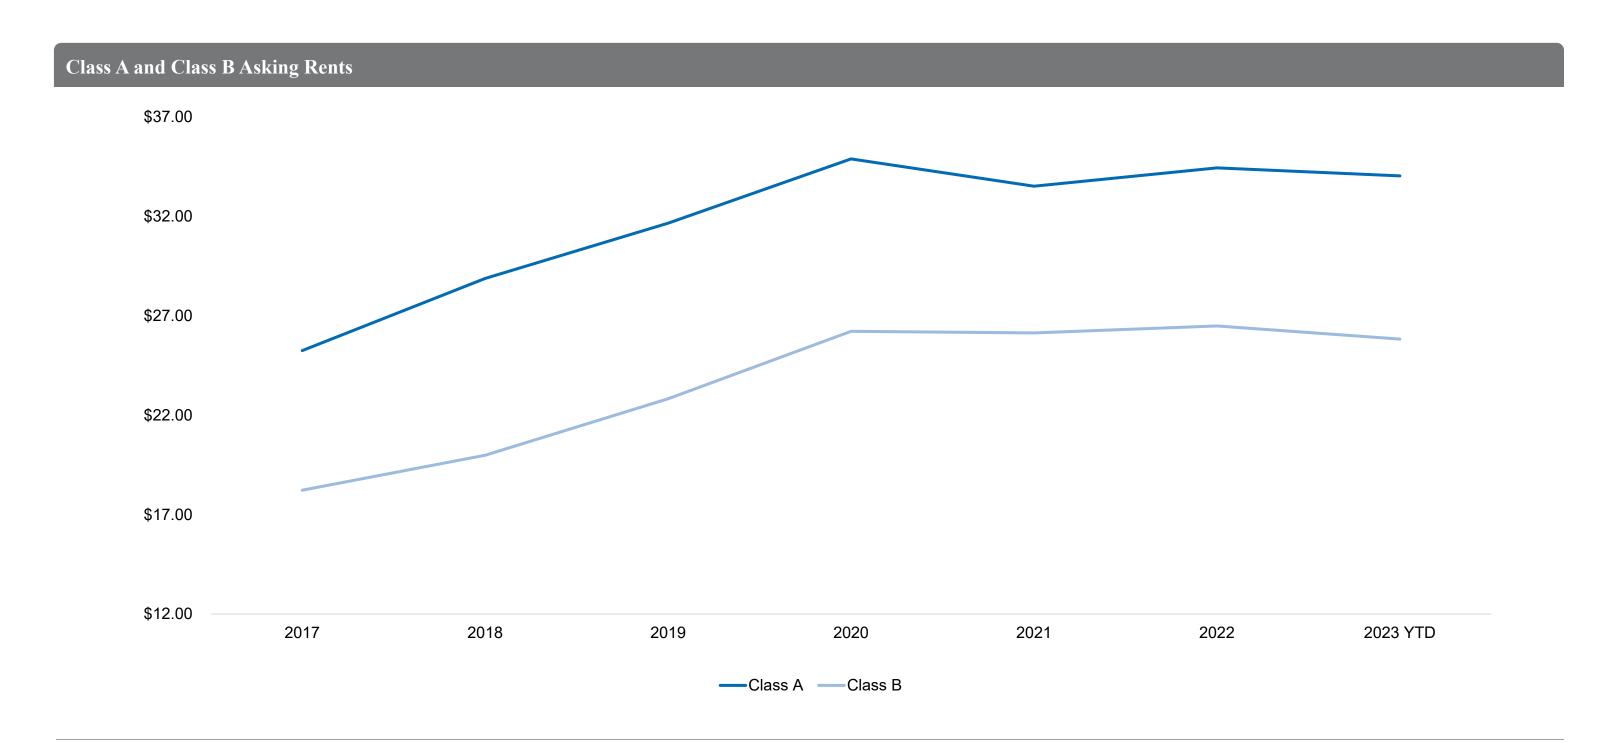

Source: Newmark Research, CoStar

Class A Decreases Slightly, Class B Properties Decrease More Significantly by 3.6%.

There is strong demand for the highest-quality properties. As a result, these properties are quoting the highest overall rates.

Source: Newmark Research, CoStar

Tenants Committing to Larger Subleases

Despite the continued prevalence of sublease availabilities, there has been an increase in activity among these spaces, with several significant subleases being signed during the current quarter.

Statistical Summary

	Current Quarter	Prior Quarter	Year Ago Period
Total Inventory (SF)	32.2M	32.2M	32.7M
Vacancy Rate	25.1%	24.4%	24.1%
Quarterly Net Absorption (SF)	(161,476)	(79,904)	42,743
Average Asking Rent/SF	\$32.47	\$32.82	\$32.41
Under Construction (SF)	359,729	359,729	359,729

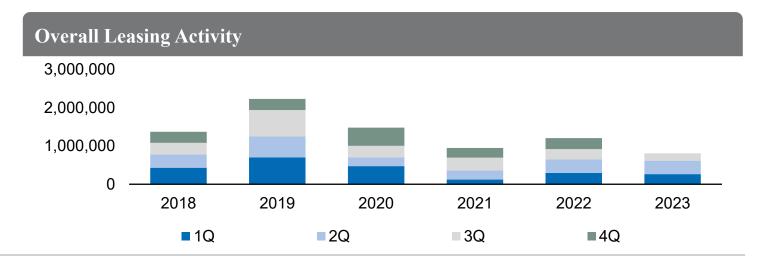

Current Market Trends

- Vacancy increased from 24.1% at the end of 2022 to 25.1%, with negative absorption of 161,476 SF. Overall rental rates ticked downward slightly by 1.1% to \$32.47/SF.
- Construction of the 350,000-SF North Loop Green is reaching final stages and is scheduled to be completed in January 2024.
- RBC Gateway tower was sold for \$225 million, the largest sale so far in 2023 in a slow investment sale market.
 Spear Street Capital acquired the property from the developer, United Properties. This sale consists of 525,000 SF of office space, ground floor office lobby and underground parking facility, which accommodates 296 parking stalls. The sale does not include the Four Seasons hotel and residential condominiums.
- Completed in 2022, RBC Gateway has a 99% occupancy rate, driven by robust demand for top-tier, newly-built
 facilities that aid employers in enticing their workforce back to the office in a hybrid work environment.
- Coworking company WeWork announced concerns about ongoing operational sustainability. WeWork operates
 in over 80,000 SF at the Nordic in the North Loop and an additional 30,000 SF at Capella Tower in the Core of
 the CBD.
- After buying Lasalle Plaza during the second quarter of 2023, Hempel bought an 850-stall parking ramp nearby for \$9.8 million. This purchase increases the parking options Hempel can offer tenants at Lasalle Plaza, a valuable amenity for Downtown workers.
- The 58-story Capella Tower, the second tallest building in Minnesota after the IDS Tower, is currently for sale.
 The property totals over 1.4 million SF and is owned by Shorenstein Partners.
- The Lumber Exchange Building was acquired by the lender. The property, totaling 229,211 SF and constructed in 1885, was previously owned by R2 Companies and York Capital Management. There was a \$20.1-million loan associated with the property, due to mature on June 1st.
- The former Banana Republic store space in the IDS Center was leased by Associated Bank, which will move its Minneapolis CBD branch there from Baker Center, joining seven other banks on the skyway level of the tower.

Current Market Trends

Under Construction (SF)

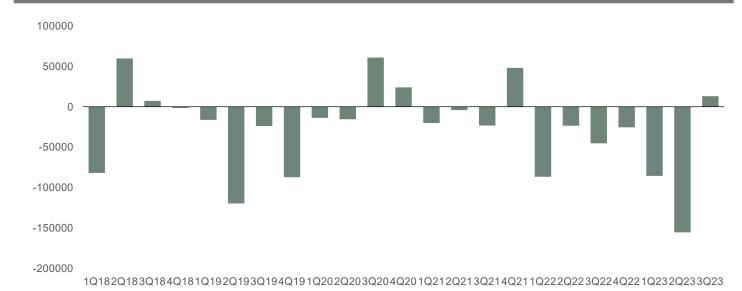

- Vacancy decreased slightly, from 22.1% during the second quarter of 2023 to 21.7%, and positive absorption totaled 13,066.
- The St. Paul CBD is an affordable submarket, with asking rents of \$24.67/SF, compared with the overall average rate of \$29.42/SF.
- HealthPartners chose not to renew its lease at the Great Northern Building, where it occupied 100,000 SF of space. Previously, approximately 500 employees were based at this location.
- The CPA firm Redpath has renewed its lease at Securian Center, where the firm has its headquarters. Redpath extended its lease for 11 years, securing a total of 33,690 SF on the 15th and 16th floors of the building.
- Greater MSP will relocate from the 16th floor of the Securian Center to Osborn370. The organization will now occupy 10,000 SF of space on the 19th floor, an increase from its previous space, which was 8,657 SF.

Under Construction (SF)

- Best Buy made 600,000 SF of space available for lease in its expansive 1.5-million-SF corporate campus in Richfield. The complex has a 215,000-SF communal amenity area that includes dining and coffee options.
- The vacancy rate increased to 21.7% from 17.2% in the second quarter of 2023, as there was 748,904 SF of negative absorption, largely due to Best Buy.
- Average quoted rental rates decreased from \$30.18/SF in the second quarter of 2023 to \$29.08/SF.
- The France Avenue Corridor has been a hotspot of robust demand, with its strong infill location and proximity to retail, services and freeway linkages.
- The 45,00-SF Creekridge Office Center I, which has remained vacant since Siteimprove's departure two years ago, may undergo a transformation to a facility that includes golf simulators, restaurant space, and 16,000 SF of office space. Pro golf instructor Ernie Rose submitted a plan for the property to the city.
- UnitedHealth Group has opted not to renew its lease at its 345,000-SF headquarters building in Minnetonka. Among the employees affected by this decision, the company's C-suite executives will relocate to the Optum campus in Eden Prairie during the first half of 2024.
- Schneiderman's Furniture obtained approval from Bloomington city officials to convert the Penn American
 office building into a furniture showroom. An entity associated with Schneiderman's purchased the 70,000SF building in March of 2020.

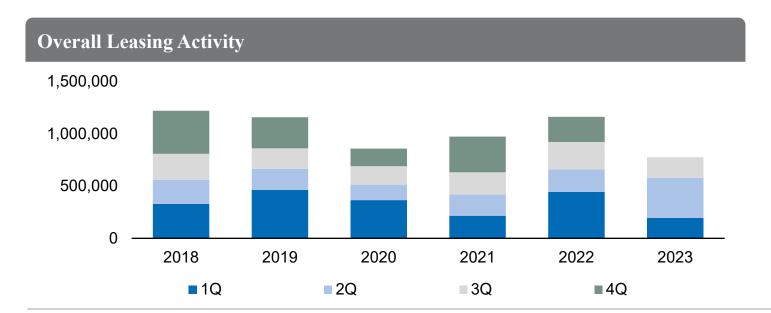

West

Statistical Summary

	Current Quarter	Prior Quarter	Year Ago Period
Total Inventory (SF)	10.3M	10.3M	10.3M
Vacancy Rate	16.8%	15.8%	16.7%
Quarterly Net Absorption (SF)	(111,860)	16,285	74,184
Average Asking Rent/SF	\$34.28	\$34.91	\$34.19
Under Construction (SF)	0	0	0

Current Market Trends

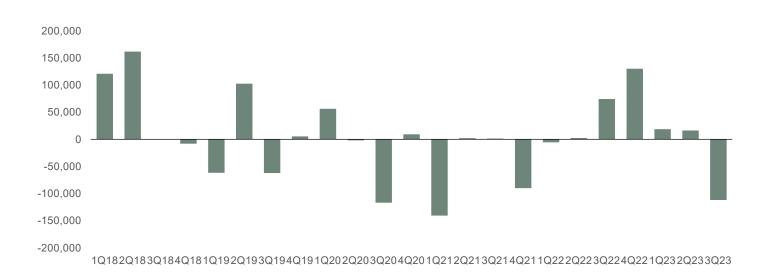

- The West submarket boasts the highest rental rates among submarkets at \$34.28/SF, surpassing the overall average of \$29.42/SF by 16.5%, and exceeding the overall rate of \$32.82/SF in the Minneapolis CBD, which has the second-highest rate in the metro area.
- The vacancy rate increased from 15.8% to 16.8%, with 111,860 SF of negative absorption.
- The West End node within the submarket is highly sought after and includes the speculative development
 10 West End. This project marked the first speculative building in over 15 years when it was completed in
 2021 and achieved 90% occupancy within two years of completion.
- An additional office building, 20 West End, is planned at the site and will include a top floor sky deck.
